 RE: Transamerican Auto Parts 401k Plan Default Fund

You are receiving this notice because one of the following applies to you:

- you are currently **eligible to participate** in our 401k plan
- your contributions are currently being invested in the Plan designated default fund
- you have a balance in the Plan designated default fund

As such, you have the right under the Plan to direct the investments for your existing balances and future contributions to any of the Plan's available investment options. In the event you have not made an investment election for a given contribution, it will be invested into the Plan's designated default option (the "Plan Designated Fund") the Fidelity Freedom Funds®. These funds are described in more detail below.

To obtain information about other plan investment options, please log onto NetBenefits® at www.401k.com or call 1-800-835-5097 to speak to a representative. You may also make changes to your investment elections for future contributions and/or exchange all or a portion of your existing balance into other options available under the Plan via NetBenefits or by phone. We encourage you to review your investment mix and deferral percentage and update as appropriate.

The Fidelity Freedom Funds® used as the Plan Designated Fund are based on the assumption that the participant will retire at age 65. The following table indicates which fund your contributions will be directed to, as determined by your plan sponsor, based on your date of birth.

Fund Name	Description	Gross Expense Ratio* as of 9/27/2010
Fidelity Freedom Income Fund®	<p>Objective: Seeks high total current income and, as a secondary objective, capital appreciation.</p> <p>Strategy: Investing in a combination of underlying Fidelity equity, fixed-income, and short-term funds using a moderate asset allocation strategy designed for investors already in retirement. Allocating assets among underlying Fidelity funds according to a stable asset allocation strategy of approximately 20% in domestic equity funds, 35% in investment-grade fixed-income funds, 5% in high yield fixed-income funds, and 40% in short-term funds.</p> <p>Risk: The fund is subject to the volatility of the financial markets, including equity and fixed income investments. Fixed income investments entail issuer default and credit risk, inflation risk and interest rate risk (as interest rates rise bond prices usually fall and vice versa). This effect is usually pronounced for longer-term securities. Principal invested is not guaranteed at any time, including at or after retirement.</p> <p>Short-term Redemption Fee Note: None</p>	.50%
Fidelity Freedom 2000 Fund®	<p>Objective: Seeks high total return until its target retirement date. Thereafter the fund's objective will be to seek high current income and, as a secondary objective, capital appreciation.</p> <p>Strategy: Investing in a combination of underlying Fidelity equity, fixed-income, and short-term funds using a moderate asset allocation strategy designed for investors expected to have retired around the year 2000. Allocating assets among underlying Fidelity funds according to an asset allocation strategy that becomes increasingly conservative until it reaches 20% in domestic equity funds, 35% in investment-grade fixed-income funds, 5% in high yield fixed-income funds, and 40% in short-term funds (approximately 10 to 15 years after the year 2000). Ultimately, the fund will merge with Freedom Income Fund.</p> <p>Risk: The investment risks of each Fidelity Freedom Fund changes over time as its asset allocation changes. They are subject to the volatility of the financial markets, including equity and fixed income investments in the U.S. and abroad and may be subject to risks associated with investing in high yield, small cap, commodity-linked, and foreign securities. Principal invested is not guaranteed at any time, including at or after their target dates.</p> <p>Short-term Redemption Fee Note: None</p>	.51%
